

## **SYMBION COMMITS TO PHARMX ORDERING GATEWAY**

PharmX Pty Limited and Symbion Health Pty Limited are pleased to announce the signing of an agreement for Symbion Health to access and utilise the PharmX ordering gateway.

Graham Cunningham, Chairman of PharmX commented:

“We are extremely pleased to have reached agreement with Symbion Health. In providing the PharmX capability to both the Symbion Pharmacy Distribution and Consumer divisions of this leading Australian Health Company, we look forward to assisting Symbion deliver increasing efficiency in their supply chain. We are also delighted to provide further point of sale support with the integration of PharmX with Symbion’s pharmacy software solution; Minfos.”

PharmX is a joint venture group owned by Mountaintop Systems, Simple Retail, Corum and PCA NU Systems. The ordering gateway is a common software system created to facilitate electronic ordering for pharmacists and their suppliers. Since commencing business in 2006, PharmX has transmitted more than 2,000,000 orders and invoices via the gateway.
